- **Timeframe:** Within 5 days after a petition for determination of incapacity is filed, the Court shall appoint a three-member examining committee. Members must submit their report within 15 days of appointment. The hearing on the incapacity is set no later than 14 days after the filing of the committee reports.
 - **Composition of the Committee:** One member in each committee must be a psychiatrist or other physician. Remaining members must be either a Florida

One member must have knowledge of the type of incapacity alleged in the petition.

- **Conflict of Interest:** An attending or family physician of the alleged incapacitated person (AIP) may not serve on the Committee. Members may not serve in any particular case if they are related to or associated with another committee member, the AIP, the petitioner, the proposed guardian, or the attorney for the petitioner. Likewise, Members may not serve in a case if employed by a private or government agency that has custody or furnishes services/subsidies to the AIP or his family.
- **The Examination and Report:** Members must examine an AIP and provide a written opinion on whether or not the person is capable of exercising certain specified personal rights typically afforded to adults. See the examination report form for further information.
 - The examination of the AIP will include physical examination/observations, a mental health examination, and a functional assessment of the AIP. The omission of any of the three aspects of the examination noted above must be explained in the report.
 - Examinations normally consists of a visit to the AIP's home, whether a house, assisted living facility, or skilled nursing facility. Sometimes the AIP is hospitalized and, in that event, the examination would be conducted in the hospital rather than the AIP's normal residential environment. On rare occasions the AIP comes to a member's office for the examination. Members may call law enforcement to accompany them during an examination if a threatening condition exists. This is also a rare occurrence.
 - If the attending or family physician is available for consultation, the committee must consult with the physician.
 - Members may need to consult with available collateral sources, including friends, neighbors, or relatives, to determination the AIP's incapacities and capabilities.
 - Members may also need to consider any previous exams, habilitation plans, school records, and psychological and psychosocial reports.

****THE COURT IS NOT CURRENTLY SOLICITING FOR COMMITTEE MEMBERS. IF THE SITUATION CHANGES, A NOTICE OF A SOLICITATION WILL BE POSTED ON THE COURTS WEBSITE.****
